

# LOUMINA

## HOW TO ESTABLISH YOUR RING SIZE

### STEP 1. CONFIRM MEASUREMENT SIZE

Measure the bar to the right to confirm the printed ring sizes. It should be exactly 30 mm long.

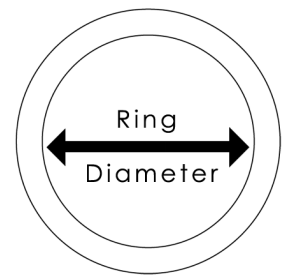

### STEP 2. CHOOSE A SIZE TEST RING

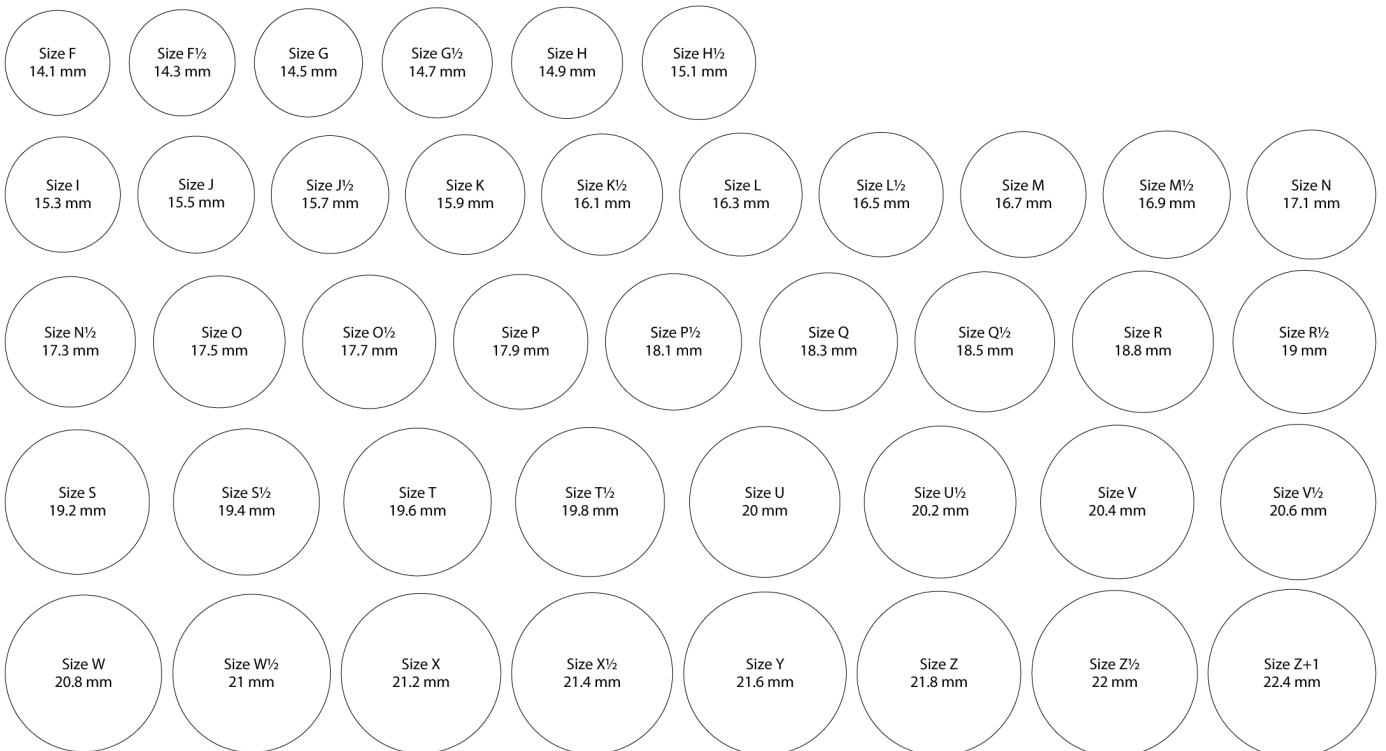

Choose a currently owned ring that matches the size of the desired Loumina purchase to be used as a test ring.

Then place the chosen test ring over the circles below and match the inside edge of the ring to the nearest sized circle.

Note: If the test ring is in-between two circle sizes choose the larger size.

MEASUREMENTS MUST MATCH THE INSIDE EDGE OF TEST RING

MEASUREMENTS REFLECT RING SIZES IN NEW ZEALAND & AUSTRALIA
